**Item 8.01. Other Events**

Golden State Water Company ("GSWC"), a subsidiary of American States Water Company, along with three other investor-owned California water utilities, has reached an agreement with the California Public Utilities Commission to defer the cost of capital application for another year. As a result, GSWC will file its next cost of capital application by March 31, 2016. As part of the agreement for the deferred filing date, the four water utilities agreed to forgo any adjustment to their authorized cost of capital in 2016, including any changes that would be triggered by the Water Cost of Capital Adjustment Mechanism. GSWC's current authorized cost of capital (a weighted return on equity and cost of debt) of 8.43% will continue in effect through December 31, 2016.

This Form 8-K is furnished to, but not filed with, the Securities and Exchange Commission.
