

# American States Water Company Announces Earnings for the Second Quarter of 2014

August 5, 2014

SAN DIMAS, Calif.--(BUSINESS WIRE)--Aug. 5, 2014-- American States Water Company (NYSE:AWR) today reported net income of \$15.4 million, or basic and fully diluted earnings per share of \$0.39 for the quarter ended June 30, 2014, as compared to net income of \$16.6 million, or basic and fully diluted earnings per share of \$0.43 for the quarter ended June 30, 2013.

#### Second Quarter 2014 Results

The table below sets forth a comparison of the second quarter diluted earnings per share by business segment, as reported:

	3 Months Ended			
	6/30/2014	6/30/2013	Change	
Water	\$0.33	\$0.33	\$	
Electric	0.02	0.03	(0.01)	
Contracted services	0.04	0.07	(0.03)	
Consolidated diluted earnings	\$0.39	\$0.43	(\$0.04)	

#### Water

For the three months ended June 30, 2014 and 2013, diluted earnings from the water segment were \$0.33 per share. An increase in the water gross margin of approximately \$684,000, or \$0.01 per share, due primarily to second-year rate increases approved by the California Public Utilities Commission ("CPUC"), was mostly offset by an increase in the water effective income tax rate as compared to the same period in 2013. Overall, operating expenses remained relatively unchanged.

#### Electric

For the three months ended June 30, 2014, diluted earnings from the electric segment were \$0.02 per share as compared to \$0.03 per share for the same period in 2013 due to a recovery of \$834,000, or \$0.01 per share, in the second quarter of 2013 for previously incurred costs associated with procuring renewable energy resources. There was no similar item in 2014. In February 2012, Golden State Water Company ("GSWC") filed its electric general rate case for rates in years 2013 through 2016. In May 2014, GSWC along with all of the parties involved in this rate case filed a settlement agreement with the CPUC. A final decision from the CPUC is expected in late 2014. Pending a final decision on this general rate case, electric revenues have been recorded using 2012 adopted levels authorized by the CPUC.

#### **Contracted Services**

Diluted earnings from contracted services decreased by \$0.03 per share during the second quarter of 2014 as compared to the same period in 2013, mainly as a result of an anticipated decrease in construction activity, primarily at the Fort Bliss and Fort Bragg military bases. Significant construction work was completed during 2013 at these military bases, with less work performed during 2014 as several large construction projects were either completed in 2013 or are now near completion. However, construction activity for the remainder of 2014 is expected to increase as compared to the first half of 2014. ASUS is also expecting various price redeterminations to be finalized in 2014 which could result in retroactive revenues in 2014.

#### Year-to-Date 2014 Results

Basic and fully diluted earnings per share were \$0.68 and \$0.67, respectively, for the year-to-date ("YTD") June 30, 2014 compared to basic and fully diluted earnings per share that were both \$0.77 per share for the YTD June 30, 2013. The table below sets forth a comparison of the YTD diluted earnings per share by business segment, as reported:

	Year-to-Date			
	6/30/2014	6/30/2013	Change	
Water	\$0.54	\$0.59	(0.05)	
Electric	0.04	0.04		
Contracted services	80.0	0.14	(0.06)	
AWR Parent	0.01		0.01	
Consolidated diluted earnings	\$0.67	\$0.77	(\$0.10)

Surcharges billed to customers for previously incurred costs are recorded as revenues with a corresponding increase in operating expenses. These surcharges have no impact to net earnings and; therefore, are excluded from the table above.

#### **Regulatory Matters**

In July 2014, GSWC filed a general rate case for all of its water regions and the general office. The application will determine rates for the years 2016, 2017 and 2018. GSWC's requested capital budgets in the application average approximately \$90 million a year for the three year period. The 2016 adopted water gross margin is expected to decrease by approximately \$700,000 as compared to the currently adopted levels due, in part, to a decrease in the annual depreciation expense resulting from an updated depreciation study. The new water rates will allow GSWC to earn its 8.34% authorized return on rate base and are expected to become effective in January 2016.

## **Dividends**

American States Water Company has paid dividends to shareholders every year since 1931, increasing the dividends received by shareholders each calendar year since 1954. On May 19, 2014, the Board of Directors of AWR approved a 5.2% increase in AWR's third quarter cash dividend from \$0.2025 to \$0.2130 per share on the common shares of the Company. Dividends on the common shares will be payable on September 2, 2014 to shareholders of record at the close of business on August 15, 2014.

## **Non-GAAP Financial Measures**

This press release includes a discussion on the water gross margin, which is computed by taking total water revenues, less total supply costs. The discussion also includes AWR's operations in terms of diluted earnings per share by business segment, which is each business segment's earnings divided by the Company's weighted average number of diluted shares. These items are derived from consolidated financial information but are not presented in our financial statements that are prepared in accordance with Generally Accepted Accounting Principles ("GAAP") in the United States. These items constitute "non-GAAP financial measures" under Securities and Exchange Commission rules.

The non-GAAP financial measures supplement our GAAP disclosures and should not be considered as alternatives to the GAAP measures. Furthermore, the non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures of other registrants. The Company uses water gross margins and earnings per share by business segment as important measures in evaluating its operating results and believes these measures are useful internal benchmarks in evaluating the performance of its operating segments. The Company reviews these measurements regularly and compares them to historical periods and to the operating budget.

### **Forward Looking Statements**

Certain matters discussed in this news release with regard to the Company's expectations may be forward-looking statements that involve risks and uncertainties. The assumptions and risk factors that could cause actual results to differ materially include those described in the Company's Form 10-Q for the quarter ended June 30, 2014 filed with the Securities and Exchange Commission.

**Second Quarter 2014 Earnings Release Conference Call** - The Company will host a conference call tomorrow, August 6, 2014 at 2:00 p.m. Eastern Time. Interested parties can listen to the live conference call over the Internet by logging on to <a href="https://www.aswater.com">www.aswater.com</a> and clicking the "Investors" button at the top of the page.

The call will also be archived on our website and can be replayed beginning Wednesday, August 6, 2014 at 5:00 p.m. Eastern Time and will run through Wednesday, August 13, 2014.

American States Water Company is the parent of Golden State Water Company and American States Utility Services, Inc. Through its utility subsidiary, Golden State Water Company, AWR provides water service to approximately 257,000 customers located within 75 communities throughout 10 counties in Northern, Coastal and Southern California. The Company also distributes electricity to approximately 24,000 customers in the City of Big Bear and surrounding areas in San Bernardino County, California. Through its contracted services subsidiary, American States Utility Services,

Inc., the Company provides operations, maintenance and construction management services for water and wastewater systems located on military bases throughout the country through 50-year privatization contracts with the U.S. government.
